

MASSIMILIANO CANOSI

DATA SCIENTIST

PROFILE

Data Scientist passionate about technology, innovation, blockchain and artificial intelligence.

My studies have given me a broad understanding of economic processes, IT tools, software packages and approaches. My side hustles are indie games development and crypto mining, with miners already running in the Milan area. Curious, globally engaged, open-minded and strongly motivated. It's about making ideas happen.

INFORMATION

- Date of birth: 12/11/1998
- Mobile: +39 320 0822 944
- Email: massimiliano.canosi@gmail.com
- LinkedIn: www.linkedin.com/in/massimiliano-canosi
- GitHub: <https://github.com/Massicanosi>
- Address: 20148, Milan, Italy

IT SKILLS

- Git
- Azure (DevOps, AppService, AI Search, RGs)
- Databricks
- Power BI
- Tableau
- MS Office
- MongoDB
- SQL Server

Coding

Extensive knowledge:

- SQL
- Python
- DAX

Good knowledge:

- JavaScript, HTML, CSS (WebApp Development)
- R
- C# (videogames development in Unity)

QUALIFICATIONS

- Feature Engineering (Kaggle - 2025)
- Llama for Python Programmers (University of Michigan, 2024)
- Building Systems with the Chat GPT API (DeepLearning.AI - 2024)
- Supervised ML: Regression and Classification (Stanford University, DeepLearning.AI - 2024)
- Data Wrangling, Analysis and AB Testing with SLQ (University of California, 2024)
- Machine Learning (Stanford University, DeepLearning.AI - 2024)
- Understanding ISO Security Standards (CODIO - 2024)

PERSONAL PROJECTS

- **RAG System development** with MongoDB and pyMongo
- **OCR** with OpenCV and Tesseract
- Project Champions: a webapp for a fantasy board game
- **Dynamic Network Chart** based on the ESCO taxonomy developed in Javascript
- Full-stack dev of my personal website: <https://massicanosi.github.io/>

LANGUAGES

- Italian - Native
- English - C2
- Spanish - B1

WORK EXPERIENCE

Data Scientist

THE ADECCO GROUP - MILAN, ITALY

August 2024 - Ongoing

- Worked on **forecast projects** using **Machine Learning** and **Time Series analysis**
- Developed AI solutions with **Azure OpenAI** and **Azure Search Service**
- **Algorithms implementation** (NumPy, Matplotlib, Pandas, Scikit-Learn, TensorFlow, PyTorch, scipy)
- **RAG System Development** and Production Deployment (MongoDB Atlas Search, Azure Vector Search)
- **Developed full-stack web applications** (React, TypeScript, Flask, JavaScript, HTML, CSS)
- Technical Consultant for high-profile clients in the **automotive** and **fashion** industries, collaborating with them to define processes, automate workflows, and consistently track KPIs and production inefficiencies over time
- Created **custom GPTs** developing GPT Wrappers

Data Analyst

THE ADECCO GROUP - MILAN, ITALY

August 2022 - August 2024

- **Developed internal web applications** to facilitate upskilling, reskilling, and job orientation processes, incorporating an interactive network graph built in JavaScript
- **Developed PowerBI visualizations** tailored for field teams (supporting 2,500+ users with delivery data), middle management, and executives focusing on financial insights
- **Developed automated reporting systems** to assist colleagues by saving time and boosting efficiency
- Contributed to analyzing the company's Data Warehouse architecture and data bindings, and assisted the team in enhancing the DWH process in collaboration with a tech-consulting firm.

EDUCATION

Master's Degree in Business Management

UNIVERSITÀ CATTOLICA DEL SACRO CUORE - MILAN, ITALY

September 2020 - June 2023

- **Grade:** 110/110
- **Thesis:** Evolution of data management in an era of high business automation. The Explora case for The Adecco Group.

Master's Degree in International Business

AMSTERDAM SCHOOL OF INTERNATIONAL BUSINESS (AMSIB - HvA)

- AMSTERDAM, NETHERLANDS

August 2021 - February 2022

- GPA 4/4

Bachelor's Degree in Economics and Business

UNIVERSITÀ CATTOLICA DEL SACRO CUORE - MILAN, ITALY

September 2017 - November 2020

- **Grade:** 110/110 cum laude
